WINCHESTER-FREDERICK COUNTY DIRECTORY OF MANUFACTURING

The 2008-2009 Winchester-Frederick County Directory of Manufacturing is comprised of industries which have been assigned a Standard Industrial Classification Code (SIC) in the mining (1000-1400) or manufacturing (2000-4000) series.

The Directory provides the following information on each business: principal local contact, mailing address, telephone number, fax number, and web site (if available), product manufactured, SIC code, employment range, and date local operation began.

Employment ranges are used in this directory to indicate number of employees in the local facility.

This Directory is based on data collected from both mail and telephone surveys developed by the Economic Development Commission. Each company indicated that they wished to be included in the Directory. While every attempt has been made to provide accurate information, there may be discrepancies. Please call the Economic Development Commission at 540-665-0973 to report any missing or inaccurate data.

Again, this Directory reflects only manufacturing operations. There are hundreds of service, wholesale and distribution, retail, transportation, and other companies in Winchester-Frederick County. A listing of a broader range of businesses is included in the Top of Virginia Chamber of Commerce Membership Directory, which may be obtained by calling 540-662-4118. Also, the Economic Development Commission publishes other directories that list many of these businesses.
